I am writing to urge you to deny the application of Home Depot, Inc. to acquire a Utah industrial loan company, EnerBank, and request that the FDIC hold a public hearing on the application. This application is similar to the attempt by Wal-Mart to charter a new ILC and raises the same critical public policy concerns.

I could go on at length as to the specific issues raised, but you have heard all the same arguments in the Wal-Mart application and I do not wish to waste my time or yours. Please consider this to be one voice in strong opposition to the application.

Thank you for your time and consideration,

Mr. Ashley Burt
